GenAI Prompt Log

P4 - Retail and E-Commerce: Conversational Inventory AI Pipeline

Student Name	Samarth Rajesh Lad
Problem ID	P4 - Retail and E Commerce: Conversational Inventory AI Pipeline
Program	BITS Pilani BS Program, Apex Project, Trimester 3
Tool Used	Claude (Anthropic)
Submission Date	July 10, 2026
Instructor	Deepak Bahuguna

Prompt Log

Entry 1

Tool: Claude

Prompt: I have loaded my dataset in Colab and run `df.info()`, `df.isnull().sum()`, `df.describe()` and `df.duplicated()`. Can you help me interpret what I am seeing?

Used for: Understanding the inspection outputs and identifying which issues needed to be fixed. All inspection commands were run and interpreted by me with Claude explaining the outputs.

Entry 2

Tool: Claude

Prompt: Help me create three bar charts in Seaborn for category sales, location sales, and payment method sales. I am also getting a palette warning.

Used for: Code for analysis charts and fixing the Seaborn palette deprecation warning. Charts were generated and interpreted by me.

Entry 3

Tool: Claude

Prompt: Help me draft project report Sections 5 and 6

Used for: Drafted Key Findings and Limitations and Conclusion sections which I reviewed, edited, and rewrote in my own words

Note: Claude was used in this project for guidance, explanation of concepts, and drafting of text that was subsequently reviewed and rewritten. All pipeline decisions, data inspection results, and analytical findings are my own. No AI tool was used to generate synthetic data or produce code that was submitted without understanding.
